- 30.12.03 The contents of the Company's directories may not be published or reproduced in any form without the Company's written consent.

- 30.13.01 In the case of errors or omissions in directory standard listings, whether or not the error or omission is with regard to a telephone number, the Company's liability is limited to making a refund or canceling any charge associated with such listings for the period during which the error or omission occurred. However, where the error or omission is occasioned by the Company's negligence, the Company is also liable for the amount calculated in accordance with 30.16.1.
- 30.13.02 In the case of errors in telephone numbers in directory listings, unless central office facilities are unavailable, the Company must provide reference of call service, free of charge, until termination of the customer's service or distribution of updated directories for that district in which the number or listing is correct.

GENERAL**30.14 COMPANY-INITIATED CHANGES IN TELEPHONE NUMBERS AND SERVICE ARRANGEMENTS**

30.14.01 Customers do not have any property rights in telephone numbers assigned to them. The Company may change such numbers, provided it has reasonable grounds for doing so and has given reasonable advance written notice to the customers in question, stating the reason and anticipated date of change. In cases of emergency, oral notice with subsequent written confirmation is sufficient.

30.14.02 Whenever the Company changes a customer's telephone number on its own initiative, it must, unless there are insufficient central office terminations available, provide reference of call service without charge until termination of the customer's service or distribution of updated directories for that district showing the new number, whichever occurs first.

30.15. REFUNDS IN CASES OF SERVICE PROBLEMS

30.15.01 Where there are omissions, interruptions, delays, errors or defects in transmission, or failures or defects in Company facilities, the Company's liability is limited to a refund of charges, on request, proportionate to the length of time the problem existed. With regard to long distance service and short period private line service, the refund shall be computed in a similar manner, provided the Company is advised promptly of the problem. However, where the problem is occasioned by the Company's negligence, the Company is also liable for the amount calculated in accordance with 30.16.1.

30.16. LIMITATION OF COMPANY LIABILITY

30.16.01 Except with regard to physical injuries, death or damage to customer premises or other property occasioned by its negligence, the Company's liability for negligence, including negligence with regard to intercept, reference of call service and emergency service from coin telephones, and also for breach of contract where the breach results from the negligence of the Company, is limited to the greater of \$20.00 and three times the amounts refunded or canceled in accordance with sections 30.13.01 and 30.15.01, as applicable.

30.16.02 The Company will not be liable for:

- (a) any act or omission of a telecommunications carrier whose facilities are used in establishing connections to points which the Company does not directly serve;
- (b) defamation or copyright infringement arising from material transmitted or received over the Company's facilities;
- (c) infringement of patents arising from combining or using customer-provided facilities with the Company's facilities; or
- (d) copyright or trademark infringement, passing off or acts of unfair competition arising from directory advertisements furnished by a customer or a customer's directory listing, provided such advertisements or the information contained in such listings were received in good faith in the ordinary course of business.

30.16.03 These terms do not limit the Company's liability in cases of deliberate fault, gross negligence, anti-competitive conduct, or breach of contract where the breach results from the gross negligence of the Company.

GENERAL

30.17. PAYMENT TIME LIMIT

30.17.01 Subject to 30.17.02 and 30.17.03, charges cannot be considered past due until the time prescribed in the Company's Late Payment Charge Tariff has expired.

30.17.02 In exceptional circumstances, for example when a customer has incurred a significant amount of long distance charges and presents an abnormal risk of loss to the Company, prior to the normal billing date the Company may request payment from the customer on an interim basis for the non-recurring charges that have accrued, providing the customer with details regarding the services and charges in question. In such cases, subject to 30.17.3, the charges can be considered past due three days after they are incurred or three days after the Company demands payment, whichever occurs later.

30.17.03 No charge disputed by a customer will be considered past due unless the Company has reasonable grounds for believing that the purpose of the dispute is to evade or delay payment.

30.17.04 The Company may request immediate payment in extreme situations, provided that a notice has been issued pursuant to 30.17.2 and the abnormal risk of loss has substantially increased since that notice was given or the Company has reasonable grounds for believing that the customer intends to defraud the Company.

30.18. LIABILITY FOR UNBILLED AND UNDERBILLED CHARGES

30.18.01 Unless there has been customer deception with regard to a charge, customers are not responsible for paying a previously unbilled or underbilled charge except where:

- (a) in the case of a recurring charge or a charge for an international long distance message, it is correctly billed within a period of one year from the date it was incurred; or
- (b) in the case of a non-recurring charge other than for an international long distance message, it is correctly billed within a period of 150 days from the date it was incurred.

30.18.02 In the circumstances described in Section 30.18.01, unless there has been customer deception, the Company cannot charge the customer interest on the amount of the correction. If the customer is unable to promptly pay the full amount owing, the Company must attempt to negotiate a reasonable deferred payment agreement.

GENERAL

30.19. LIABILITY FOR CHARGES THAT SHOULD NOT HAVE BEEN BILLED AND THOSE THAT WERE OVERBILLED

30.19.01 In the case of a recurring charge that should not have been billed or that was overbilled, a customer must be credited with the excess back to the date of the error, subject to applicable limitation periods provided by law. However, a customer who does not dispute the charge within one year of the date of an itemized statement which shows that charge correctly, loses the right to have the excess credited for the period prior to that statement.

30.19.02 Non-recurring charges that should not have been billed or that were overbilled will be credited, provided that the customer disputes them within 150 days of the date of the bill.

30.19.03 A customer who is credited with any amount that should not have been billed or that was overbilled will also be credited with interest on that amount at the rate payable for interest on deposits that applied during the period in question.

30.20. MINIMUM CONTRACT PERIOD AND CANCELLATION BEFORE SERVICE COMMENCEMENT

N

1. General

Company Services may be provided over fibre optic facilities which terminate at the customer's premises. In such cases, the following terms apply in addition to other applicable terms in this tariff:

Access to 9-1-1 Service: In addition to the limitations on the Company's and its providers' liability set out in Item 30, the following limitations apply to the provision of enhanced 9-1-1 services ("E9-1-1 Service") on those Company Services provided over fibre to the home or fibre to the business technology ("FTTH/B Services")

The FTTH/B Services including E9-1-1 Service, may not be available during network outages, including during planned hardware or software upgrades.

The FTTH/B Services will cease to function during extended power outages, that is, once the battery back-up attached to the FTTH/B Services equipment at the customer's premises (collectively, the "FTTH/B Equipment") has been depleted.

The FTTH/B Equipment may also have to be configured in certain ways or maintained in certain locations for the proper operation of the FTTH/B Services, including the E9-1-1 Service, and therefore, the FTTH/B Equipment should not be moved, tampered with or relocated.

The customer is responsible to inform all persons who may be present at the customer's premises including residents, guests, and other persons, of such limitations and requirements.

To the extent permitted by applicable law, the Company and its providers will not be liable to the customer or any third party for any inability to use the FTTH/B Services or to obtain access to the E9-1-1 Service as a result of the limitations described in this Item or the customer's failure to comply with the requirements set out in this Item.

- 404.03 The Company determines and provides the required individual or trunk lines and data lines to the emergency reporting bureau and the fire, police and ambulance dispatch centres, pursuant to the agreements between the municipality/government and the Company and Bell Canada. When a municipality/government requests lines or trunks above the number determined to be appropriate by the Company and Bell Canada then the tariff rates apply to its additional requirements.

404.10 Confidentiality

(a)The Company provides to the municipalities/governments on a call-by-call basis for the operation of 9-1-1 PERS, the name, telephone number and service location shown on the Company's records as the address for the primary exchange or Centrex services from which the 9-1-1 call is placed, and when required, the Company provides the class of service. 9-1-1 PERS provides the Company's customers with three digit access (9-1-1) to emergency response agencies. The 9-1-1 call is delivered to a central answering bureau operated by the municipality/government. The attendant at the bureau determines the nature of the emergency and forwards the call to the appropriate fire, police or ambulance dispatch centre. The answering attendants at the agencies are supported by the following special features provided with 9-1-1 PERS.

The Company is responsible to provide information to the ALI database which displays to the answering attendant the name, location and telephone number of the primary exchange and Centrex services from which the call was placed.

(c) Call Control Feature

A series of call control features allows the attendant to retain the 9-1-1 call for as long as may be required.

(d) Integrity Check

This allows the agency to verify that the 9-1-1 access lines to its bureau are in working order.
